# *The Evans*

2020

# *A message from Deanne "Dee" Barnes our CEO*

*It began with my grandparents and “handshake ethics” that demonstrated our core values. When Mr. Evans gave his word, it was so. Evans Tool & Die and Metal Stamping has grown in size and influence, but our values, inspired by Leonard and Mary Alice, remain the same:*

- ***Honor God through our Integrity*** – We build honest, straightforward relationships that build loyalty and trust.
- ***Create loyal customers by being Accountable*** – Everyone is accountable, taking responsibility for his or her individual job and customer satisfaction.
- ***Build a legacy through Excellence in our work*** – We strive to perform our best every day, with continuous improvement, creating a company that our customers trust.
- ***Build stronger communities through our Generosity*** – Sharing our resources to create a positive impact on others.

# Our Capabilities and Processes

## WHAT WE DO FOR YOU

*Reduce supply chain risk*

*Provide efficient, cost savings solutions*

*Decrease lead times and time to market*

*Deliver excellent products and service*

*All in one American Made service provider*

**METAL STAMPING EXPERTS** Over 70 presses from 30-1000 tons and up to 1,200 strokes per minute. High-speed precision stamping and heavy, large stamping.

**TOOL & DIE SERVICES** R&D, consulting, design and prototyping. Over 400 years combined tool & die making experience by master tool makers.

**FINISHING/WELDING** We provide high-quality, spot and resistance, MIG, TIG, and robotic welding; vibratory finishing with ceramic and stainless media, part-on-part, washing and rust prevention.

**AMERICAN MADE** Outstanding, all-in-one American-made tool and die making and metal stamping.

***Reducing Supply Chain Risk***

**HAND MADE IN THE USA**
